Global Network

The integrated logistics group

Schenker is one of the world's leading providers of integrated logistics services

We provide support to trade and industry in the global exchange of goods - in land operations, worldwide air and seafreight, and in all the associated logistics services. We have 50,000 employees at 1,500 branches around the world.

As a company specialising in land transport by road and rail within Europe, our closely woven network of regularly scheduled routes connects the principal economic regions in over thirty European countries. We are just as qualified in providing solutions for air and seafreight and associated logistics services on a global scale. Our integrated logistics centres located at the hubs of the global flow of goods create an effective link between all carriers - allowing us to offer a broad range of value-added services.

Our experts provide complete solutions tailor-made for the requirements of industry today and tomorrow. International teams of specialists integrate the Group's individual service modules to create value-added chains that ensure a reliable flow of materials and information. Schenker provides its customers with all the main

services from a single source - a business principle that has proved its worth ever since the company was founded by Gottfried Schenker in Vienna more than 130 years ago. Schenker is a part of DB Logistics, the Transportation and Logistics Division of Deutsche Bahn AG.

Schenker - the new logistics powerhouse. We are now:

- No. 1 in European land transport
- No. 2 in worldwide airfreight
- No. 3 in worldwide seafreight
- No. 6 in global contract logistics
- No. 1 in European rail freight transport
- No. 3 in integrated heavyweight freight in the USA

Schenker in Australia and New Zealand

Schenker offers their complete range of logistics services in Australia and New Zealand as well as everywhere else on the globe. Services include road transport, warehousing concepts, value-added services, assembly services and quality control. Schenker's international network of offices connects the fifth continent with the rest of the world by airfreight and seafreight.

Schenker Australia was founded 1962, today consisting of 1,100 employees. The company comprises of 36 locations in Australia and 7 locations in New Zealand, with total warehousing capacity exceeding 167,000 sqm.

SCHENKER*ocean* – all aboard with Schenker

Due to decades of experience in the field of ocean going logistics, Schenker offers a comprehensive range of seafreight products and services suitable for all cargo requirements. We determine the most efficient and cost-effective cargo solutions for your business.

SCHENKER*ocean* – reliable, fast and flexible to and from main ports in Australia and New Zealand:

- Tailored multi-modal transport solutions
- Integrated pre-carriage & onwards carriage scheduling
- Defined departure & arrival times
- Optimum transit times
- IT-supported tracking
- Competitive import/export freight rates
- Experience in handling heavy & oversize cargo loads
- Expert contacts

SCHENKER*complete*
FCL (Full Container Load)

We provide the optimum type of containers to suit the structure of your shipments. The goods are loaded and unloaded directly on site at your location. Tailored solutions for complete door-to-door transports.

SCHENKER*combine*
LCL (Less than Container Load)

Our door-to-door service collects your individual consignments and transports them to gateways. The shipments are transported and delivered in containers to ensure minimum transshipment and optimum loading conditions.

SCHENKER*projects*

Intelligent solutions for highly complex products involving the transportation of extremely bulky and heavy shipments. We also select and organise all transport equipment.

High Level Capabilities In All Waters

As recognised leaders in ocean shipping, we uniquely combine local know-how and unrivalled personal customer service with global reach, global strength and global expertise.

Custom Clearance

Schenker is able to offer comprehensive Customs and Quarantine clearance for your import and export cargo. A critical component of the global supply chain, customs brokerage services have never been more important. Our Customs Clearance team works hand in hand with our Freight Forwarding team ensuring prompt clearance and delivery of your cargo. Let us tailor a solution to your specific requirements today.

Ask for our special offers for your Trans-Tasman traffic.

SCHENKERSky – the fascination of airfreight

With Schenker's time definite airfreight solutions, you are in charge of determining the pace and flexibility of your freight movement for all shapes and sizes. Your freight arrives at its destination not only at the required time, but also by the most economical route, complete with fast customs clearance and door-to-door deliveries - the choice is yours. With offices in all major airports in Australia and New Zealand, Schenker is ideally located to handle your business needs.

Tailored service packages to suit your specific needs:

SCHENKERjetcargo first

Express - for particularly urgent shipments. Transit time: 1-2 days*; daily uplift using first-class carriers. High speed - high quality

SCHENKERjetcargo business

Standard - for regular shipments. Transit time: 3-4 days.* Always perfectly timed

SCHENKERjetcargo economy

Low Budget - for shipments that are not so urgent. Transit time: 5-6 days*; competitive rates. The economical alternative

SCHENKERjetcargo special

Offers a wide range of transport concepts for charter flights, on-board couriers and other special types of shipments for hazardous like substances, perishable goods and much, much more. Specifically tailored to meet your needs.

*Transit time from Schenker station to Schenker station special to/from Australia/New Zealand

Special challenges call for special services:

SCHENKERdirect down under

In addition to our products, we have a unique dedicated 'Direct Down Under' air link from the manufacturing heart of the USA to Australia. This freighter operation service offers rapid connections to New Zealand and has recently celebrated its 10th anniversary.

SCHENKERSky bridge

Schenker's multi-modal transport system - our network of global gateways and a worldwide sailing schedule combines the advantages of sea and airfreight. Transit times are reduced by 50%, with no peak season backlogs.

SCHENKERaeroparts

Tailored to the requirements of the aerospace industry; airlines/aircraft operators, aircraft/engine and turbine manufacturers, repair and servicing companies and component wholesalers.

SCHENKERMARINEPARTS

The supply of spare parts worldwide for ship owners, fleet management, manufacturers of spare parts, shipyards, shipbuilders and repair companies.

Logistics/Supply Chain Management (SCM)

For our customers' complex supply chain needs, we offer comprehensive support services in the global exchange of goods - not only in land, air and seafreight operations, but also in all the associated logistics services including warehousing and value-adding activities.

We can help you prepare for growth

Our local and international knowledge combined with our industry/vertical market expertise and experience enables Schenker to develop flexible and tailored Logistics/SCM solutions to meet the current and future requirements of your business.

Logistics/SCM Services:

- Supply chain analysis & design, consumer procurement
- Global purchase order management & tracking
- Dynamic inventory positioning

▶ SCHENKERproduction supply
Customised solutions for procurement and production involving comprehensive warehouse solutions and value-added services. These solutions include our many supplier/vendor managed inventory programs.

📦 SCHENKERfinished goods distribution
Turn-key solutions for distribution logistics that combines our warehousing, transportation management, local transportation and freight forwarding services.

📦 SCHENKERadded values
Sophisticated services, which may be used irrespective of the supply chain. Among these services are call-centres, service testing, consulting projects etc.

📦 SCHENKERreverse logistics
Managing all aspects of the reverse flow of materials including RMA management, returns transportation management, coordination of repair, recertification or disposal, and supplier returns management.

📦 SCHENKERspares logistics
Managing fulfillment of spare parts orders including overnight deliveries to field technicians, control and replenishment of just-in-case (JIC) inventories at distribution centres and spares depots, and integration with the reverse flow of used parts.

📦 SCHENKERSupply chain diagnostics
Global consulting services that include analysis of supply chains, organisational alignment workshops, and supply chain modelling and design.

Warehousing

Providing visibility, velocity and control defines the service of our local warehousing. Schenker's warehousing space is over 167,000 sqm throughout Australia and New Zealand alone, offering customised solutions support to help optimise logistics processes.

SCHENKERwarehousing plus

Whether as a stand-alone requirement or as an integrated part of a domestic/global supply chain, Schenker can tailor a solution that fits your needs. Our warehouse management systems' modular structure is fully scalable allowing flexibility in:

- Receiving, put-away, 24/7 access & operation
- Inventory control & order fulfillment
- Returns management, cycle counting & reporting
- Consolidation, distribution storage & quality measures
- Picking, packing & security systems
- Warehouse management software solutions & event specific cargo handling
- Reporting & order receipt activities

Our system is locally supported in a highly efficient and automated environment whilst providing our customers with comprehensive and real-time visibility on line at all times.

Schenker's extensive experience in building interfaces with our own customer systems can provide simple solutions, offering access through a web portal. Our warehouse services provide the best world-class solutions to fully meet all your needs.

Third-Party Warehousing & Value-Added Services:

- Dedicated/multi-user facilities, inventory control, pick/pack/ship
- Automated material handling systems & returns management
- Quality inspection & repairs, kitting & customisation

Third-Party Transportation Management Services:

- Merge in transit, cross docking, load optimisation
- Customer service & specialised delivery coordination
- Freight bill audit & payment

Domestic Transport Services

With 45 years experience in providing air, ocean and domestic road transport throughout Australia and New Zealand, Schenker takes pride in delivering efficient, personalised service to all of our clients.

Our domestic transport services include:

- Australia & New Zealand wide distribution including interstate (Inter island) & intrastate (Intra island) road/rail express for pallets & parcels
- Linehaul services (FTL/LTL)
- Dedicated vehicle & courier services
- Local metropolitan parcel & pallet pick-ups & deliveries in all major capital cities
- Airfreight - next flight, overnight, off-peak
- Specialised transport services including sensitive freight & oversize cargo movement
- Reverse Logistics

In all of Schenker's hubs across all divisions, there are highly trained and experienced staff who co-ordinate the domestic transportation of your goods, utilising the service that most closely matches your requirements.

Whether you are participating at a trade show, requiring interstate pallet delivery or linehaul services, moving business or home overseas, organising a sports or arts event, organising a complex project, or sending and receiving goods internationally – Schenker's expertise in domestic transportation can handle your requirements.

As one of the leading international providers of integrated logistics services in the world, we are located at all major ports, airports, and our own logistics centres throughout Australia and New Zealand. We understand the need for consistent and reliable service and this is delivered through dedicated staff who ensure that orders are managed with care in every step of the supply chain.

We utilise both subcontractors as well as our own vehicles with on line booking/tracking facilities to meet our client's requirements. Schenker's state of the art real-time tracking systems allow you to have constant access to the status of your consignments. Our solutions provide a comprehensive and reliable service that meets all of your needs.

IT Solutions

Our IT solutions include a global freight management system, a sophisticated warehouse management system and a transport management system. Together our systems provide internal and external visibility of shipment and order status, inventory balances and proof of delivery throughout the whole supply chain.

Schenker offers value-added IT services geared towards providing total supply chain solutions for the market in Australia and New Zealand.

Schenker's integrated data network

Schenker computing systems are connected globally via SWORD (Schenker Worldwide Online Real-time Data Network).

Customer Connections

The SWORD network is used as a gateway to send and receive customer information in any customer required message format.

Third Party Connections

Links to airlines and shipping lines, Australian Customs, New Zealand Customs, airports, seaports and trucking companies – enabling end-to-end visibility of shipment status.

IT Services include the following:

- Freight Management System
- Warehouse Management System
- Transport Management System
- EDI Message Gateway
- EDI Invoicing
- Order Management
- Electronic Management and Status Reports
- Online Shipment Tracking
- Online Documents
- Online SLI (Shipper's Letter of Instruction)
- Landed Costing
- Costing Estimates

SCHENKER*globalsportevents*

Olympic Games, World Cup Soccer, Commonwealth Games, Sailing and Cycling Races – just to name a few of the sports events in our portfolio!

Sporting teams, broadcasters, press, sponsors, equipment suppliers and many other customers use our in-depth event knowledge:
